

MULTI-TENANT SUPERAPP PLATFORM

Vima

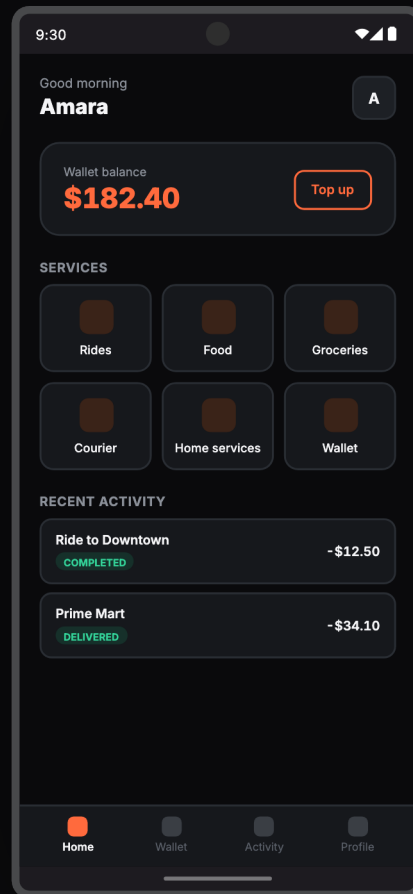

UI tour — customer app, provider app, and the tenant portal, in dark and light mode.

Dark mode

CUSTOMER APP

Home

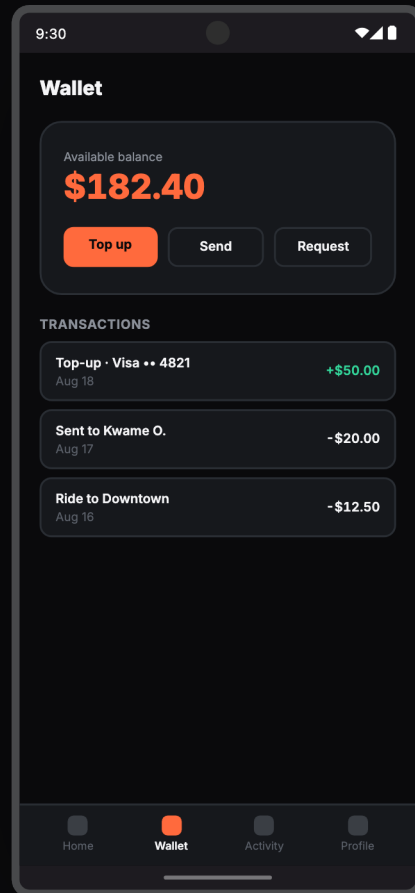

One hub across rides, food, groceries, courier, and home services, with wallet balance and recent activity surfaced up front.

CUSTOMER APP

Wallet

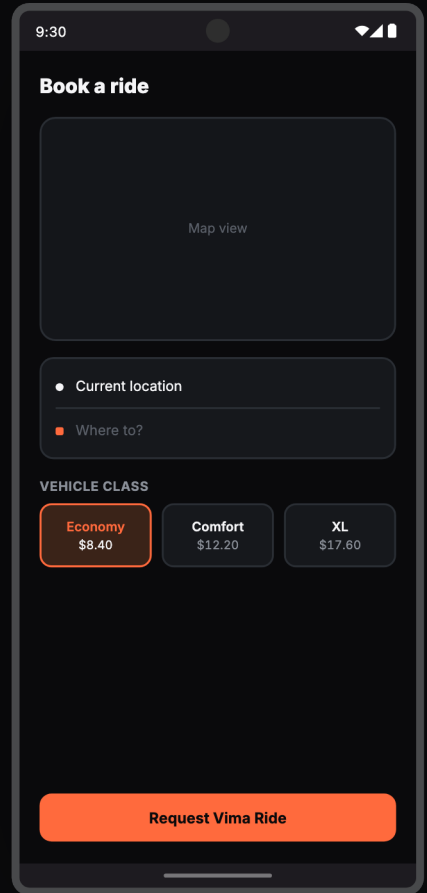

Balance backed by the double-entry ledger. Top-up, P2P send/request, and transaction history in one place.

CUSTOMER APP

Book a ride

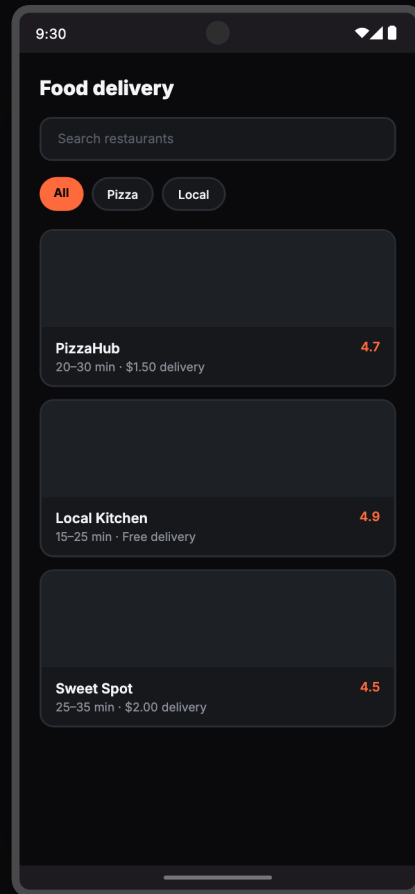

Pickup/dropoff, vehicle class, and fare estimate ahead of request — instant dispatch.

CUSTOMER APP

Food delivery

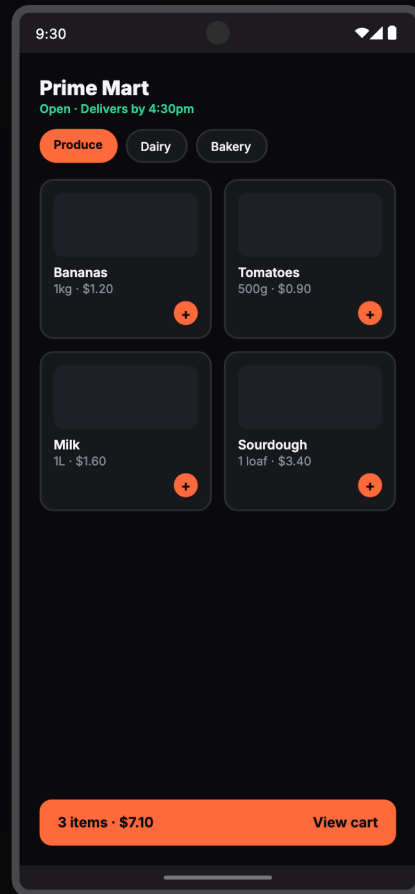

Browse restaurants by zone with rating, delivery time, and fee up front.

CUSTOMER APP

Groceries

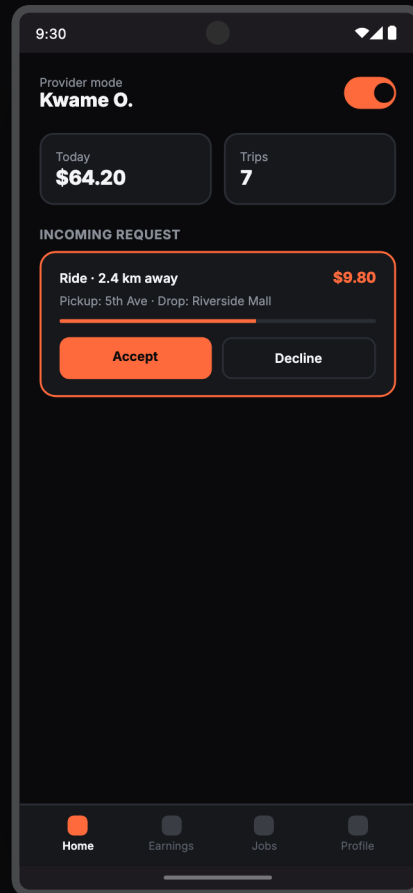

Reuses the food ordering engine, with category tabs and larger catalogs.

PROVIDER APP

Go online

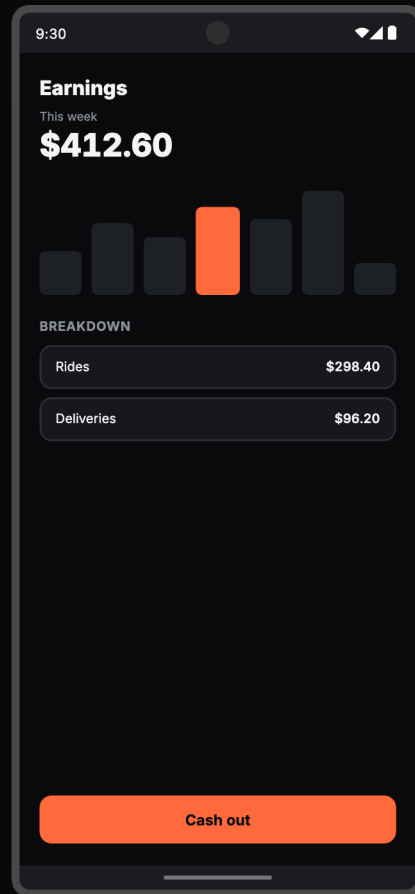

Online/offline toggle, today's earnings, and incoming job offers with an accept/decline timer.

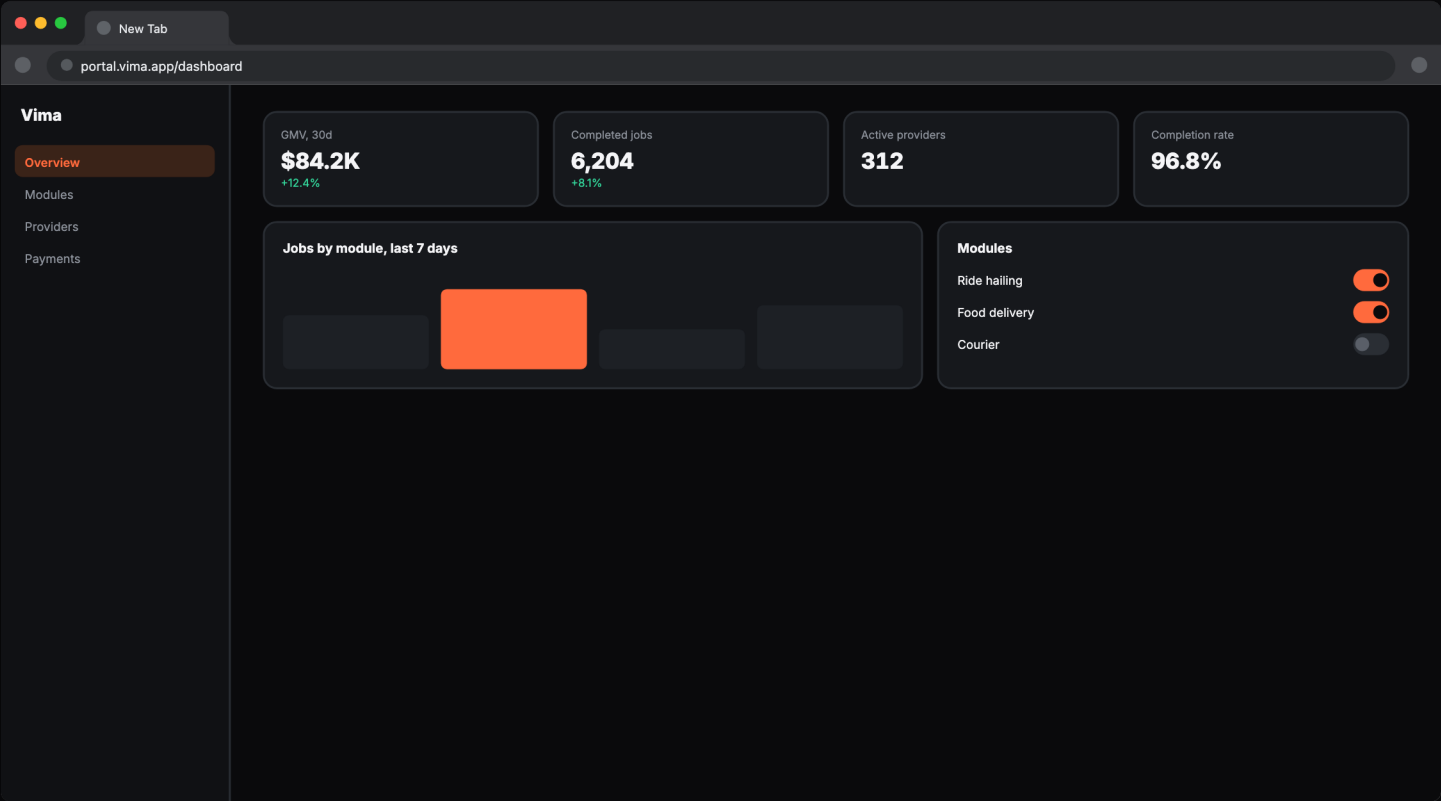

PROVIDER APP

Earnings

Weekly total, daily breakdown, and cash out via the tenant's configured payout rails.
